Description of Donated item(s) _____

Please read carefully

Donor understands that all dress donations are final and remain the property of Manitoba Angel Dresses.

No finished angel gowns nor any part of a donated dress can be returned. We accept clean wedding and formal dresses that are white/cream/silver and pastel colors that are made from bridal satin or silk. Please remove dresses from large preservation boxes. Attach the form to the dress with a safety pin. Then roll/fold the dress to drop off to Manitoba Angel Gowns, 566 Municipal Road Winnipeg, MB

Not all dresses can be used for angel gowns, but we will certainly try. If the dress is discolored/stained and unable to be cleaned, if it has dry rot, mold or mildew, if it retains a strong odor such as from pets, perfume, mothballs, or smoke, or if the dress is made from a stretchy or jersey material or lightweight/see-through material, we may not be able to use it although in some cases we are able to use the lace and embellishments even if we cannot use the material itself.

Our seamstresses are all volunteers so it can take from 12-48 months before dresses are converted into angel gowns. All gowns with completed items are posted to our Facebook page..
